

Sample types

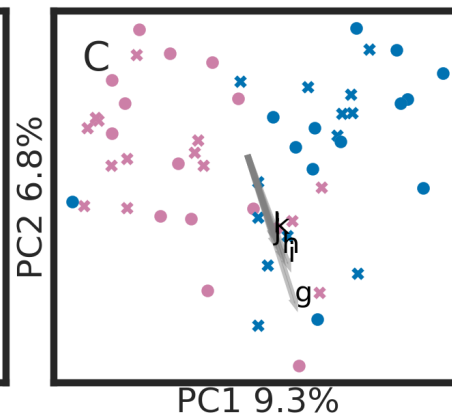

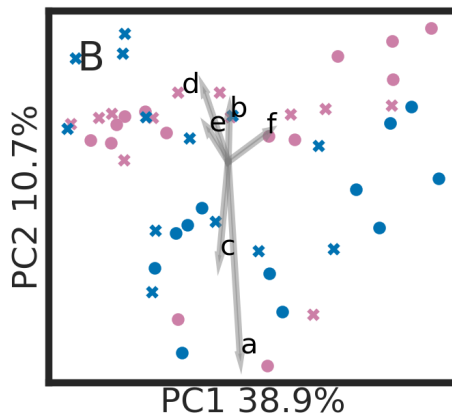

- Shrubby patch - Heterogeneous
- ✕ Inter patch space - Heterogeneous
- Shrubby patch - Homogeneous
- ✕ Inter patch space - Homogeneous

Pairwise UniFrac distances within and among niches

- Within niche: shrubs (within geodiversity class, within slope)
- Within niche: spaces (within geodiversity class, within slope)
- Among niche (within geodiversity class, within slope)

Pairwise UniFrac distances within and among geodiversity classes

- Within geodiversity class: homogeneous (within niche, among slope)
- Within geodiversity class: heterogeneous (within niche, among slope)
- Among geodiversity class (within niche, among slope)

- a 71e3 uncultured_Acidobacterium
- b 6d1f Vicinamibacteraceae
- c 8ea5 Arenimicrobium_luteum
- d dfb4 uncultured_Rubrobacter
- e 6caa uncultured_actinobacterium
- f 252c Microvirga
- g 649c Geminibasidium
- h 6fcf Geminibasidium
- i 49da Stagonosporopsis
- j 0ae1 Geminibasidium
- k 0ad3 Geminibasidium
- l 040f Geminibasidium
